

I am writing in support of my local christian radio station at 88.7 in phoenix arizona (Air1). I have been a monthly supporter of this radio station for many years, and will continue to do so in the future. This station has played a major role in our household and at my job place. It allows my family and co-workers to listen to positive music everyday. It would be a terrible shame to ever consider taking this radio station off the air. So many people have had their lives changed dramatically by hearing the positive news of our Lord Jesus Christ. And it's encouraging and uplifting to hear such a clean station where parents don't have to worry about quickly changing a station because of some inuindo or bad language. My children love this station, and don't listen to anything else....but when they do hear something else...they quickly comment on how nasty it is...they share their music with all their friends and so do my wife and I. So with that, I thank you for the opportunity to share our heart about Air 1 with you.
